English
isiXhosa

PROFILE

Aspiring Full-Stack Developer and IT professional with hands-on experience building enterprise web applications, AI-integrated platforms, and database-driven systems. Passionate about clean architecture, modern UX, and using technology to solve real-world business problems. Currently advancing my expertise through industry experience at CAPACITI GQ IT Hub and an Advanced Diploma in IT.

PROFESSIONAL EXPERIENCE

Professional Development Candidate

Present · In progress

CAPACITI GQ IT Hub

- Developing and contributing to the full-stack architecture of an AI-powered Ticket Classification Platform.
- Designing and implementing AI-driven ticket classification logic.
- Building and maintaining features for ticket creation, tracking, and management.
- Collaborating with team members in an Agile-style development environment.

Student Developer

Feb 2022 – Dec 2025

Nelson Mandela University

- Designed and developed full-stack web applications and database-driven systems.
- Implemented authentication, authorization, and responsive user interfaces.
- Participated in software testing, debugging, and code reviews.

Academic Mentor

Apr 2023 – Dec 2024

Nelson Mandela University

- Mentored peers in programming concepts, mathematics, and statistics.
- Guided students through technical problem-solving and study strategies.

SELECTED PROJECTS

AI Ticket Classification Platform

React · TypeScript · AI APIs · PostgreSQL

AI-powered platform that analyzes, categorizes, and routes support tickets automatically — reducing manual sorting and accelerating resolution.

Fridge Management System

ASP.NET MVC Core 8 · C# · MS SQL Server · Entity Framework

Enterprise web system for beverage manufacturers managing customers, inventory, fault reporting, and servicing schedules.

Pharmacy Management System

C# · ASP.NET · SQL Server · JavaScript

Full-stack system for managing pharmaceutical operations, inventory, medicine tracking, and customer transactions.
